

City of Springfield

is seeking applications for
Intern – Engineering

Department: The Office of Public Utilities

Division: Transmission & Distribution

Final Date to Apply: 4/20/2026 at 11:00 PM CST,

Work Location: Miller Street

Starting Salary: \$20.00/hour

Work Hours: Monday – Friday, 8:00 am – 4:30 pm,
hours may vary

Union: N/A

In this role you will:

- Assist with small electric design projects ranging from roadway lighting to power distribution.
- Perform field work with technicians including staking of poles and lines, solar installation testing, and inspection.
- Help with electric planning studies to detect system anomalies and constraints.
- Works with substation and relay groups learning maintenance procedures and coordination

Qualifications:

The ideal candidate will be pursuing a degree in Electrical Engineering or a related field, with a basic understanding of power distribution systems and strong analytical skills to identify system issues. They will be able to interpret technical drawings, work effectively in a team, and communicate clearly. A willingness to perform hands-on field work, learn utility operations such as substations and relays, and use engineering tools like CAD or GIS is essential, with an interest in renewable energy as a plus. **Candidate must also be actively enrolled in an accredited college for Fall 2026.**
